CONWAY

Young squirrels will soon be ripe. —Mart Baker and wife, of Madison, visited relatives here this week. —Adam Gott, of Richmond, was here this week on business. —Miss Hattie Hill, of Berea, is the guest of Miss Etta McClure, this week. —J. F. Jourdan has moved from this place to Wildie. —Grass never looked better this early in the season as it does at present. —Harris Willis, of Madison, bought two work mules from Harvey Chenault for \$215. —J. J. Wood and Harvey Chenault attended county court at Stanford Monday. —Geo. Ketron went to Cincinnati this week on business.

George W. Jones departed this life on the 4th day of April, at 5:30 p. m., at the home of his son, M. R. Jones, in Illinois, after an illness of more than three months. He left Conway on the 26th of last December to visit his children and expected to be gone about three weeks. He was taken down sick in a few days after his arrival in Illinois and gradually grew worse until the end came. The deceased was born in Virginia on the 1st day of October, 1836, and came to Kentucky soon after the close of the Civil War. He leaves a wife and six children, viz W. H. Jones, Mesdames, Lillie Hill and Fannie Arnold, who reside in Kentucky, and J. J. Jones, M. R. Jones and Mrs. Nannie Vaughn, who reside in Illinois. Thirty-two grand-children and 3 great grand children besides a host of friends to mourn his loss. Uncle George was a familiar figure in Rockcastle county and many will miss his presence. He may have had faults (and who has not) but he had many virtues, which more than balanced his accounts. We extend our sympathy to the bereaved family.

QUAIL

The recent cold spell did no damage to the fruit buds in this section. —A large assembly was at Providence, Sunday, to hear Bro. Davis' sermon on divorce and marriage. —Bro. R. B. Mahoney, of Stanford, was in this section on fire insurance business Tuesday. —Some thieving is reported in the neighborhood of Ottawa. —Simeon L. Cummins having lost a set of harness and some ham meat. —Jotham Brown and Moses Broughton have purchased the property and general merchandise of Simeon L. Cummins, at Ottawa, and will take possession Friday. —Our carpenters have gone to the towns to work during the building season. —J. A. Proctor went to Somerset last week. —E. A. Hellin and S. T. Proctor went to Brodhead this week. All are good carpenters and no one can make a mistake in employing them. —J. M. Craig sold to J. E. Lynn, of Stanford, 35 stock hogs at 4c; to W. H. Brown 14 fat hogs at a fair price; to J. H. Thompson 21 stock hogs at 4c, and to Robert J. McAlister 30 shoats at 4c. —Mr. Craig also bought of Dr. T. J. Price 5 heifers at \$12.50, and of John Acton three good steers at 3 1/2c.

FORGET ABOUT YOUR STOM-
ACH.

If your digestion is bad the vital organs of your body are not fed and nourished as they should be. They grow weak and invite disease. Kodol Dyspepsia Cure digests what you eat, cures indigestion and all stomach troubles. You forget you have a stomach from the very day you begin taking it. This is because it gets a rest—recuperates and gradually grows so strong and healthy that it troubles you no more. E. L. Babcock, Amherst, Minn., says: "I have taken a great many remedies for indigestion but have found nothing equal to Kodol Dyspepsia Cure." Kodol digests what you eat, cures indigestion, dyspepsia, sour stomach, belching, heart burn and all stomach troubles. Its preparation is the result of many years of research. Sold by the Mt. JUDGE PAYNTER'S LETTER TO SENATOR BLACKBURN

"Court of Appeals of Kentucky, Frankfort, April 5, 1905.—Hon. J. C. S. Blackburn, Versailles, Ky.—Dear Senator: I am in receipt of yours in which you advise me that it is your purpose to make a somewhat extended canvass of the State, between this and the November election, and that your first appointment is at Williamstown, April 10, and that you will accord me a division of time at that and the other appointments which you may hereafter make. You do not say for what purpose you intend to canvass the State, but I presume in the interest of your candidacy for re-election to the United States Senate.

"If you saw the announcement which I made of my candidacy for the exalted position to which we both aspire, you will recall that I said I would not allow it to interfere with the performance of the duties of the position which I now hold. The April term of the court commences on the day of your appointment, and should I accept your invitation I would violate at the first opportunity in the most public way the pledge which I made not to neglect the performance of the duties as a Judge of the Court of Appeals. The illness of our mutual friend, Judge Cantrill, prevents him from aiding the court in its labors. Therefore, my services on the bench are needed more now than they would be if Judge Cantrill could be with us.

"In addition to this, I am not quite sure that a joint canvass of the State by us would be in the interest of the party of which we are members. The party is not so much interested in the selection of either of us to represent the State in the Senate, as it is in being able to select some Democrat for that purpose. There are several close legislative districts in the State and our respective friends in these districts might become so interested in our race that they would overlook the important question of the election of a Democrat to the General Assembly. Besides, as we are in accord on the cardinal principles of our party, it is not clear to me that there is such an issue between us as to require a joint discussion of it. I write you fully that you may know that I intend to do so, but I intend to do so on my own account, and I intend to do so on my own account, and I intend to do so on my own account.

"If you state that you have invited me to be present and that I have declined, I know that you will feel that it is fair to me to give my reasons for so doing. Yours very truly,
THOMAS H. PAYNTER."

ABOUT RHEUMATISM.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. Gne application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Chas. C. Davis.

COMPOSITE-OBSERVATION CARS.

"Something entirely new has been placed on the Overland Limited trains. It is a 'composite-observation' car. It affords women passengers an opportunity of enjoying the scenery with the greatest comfort and free from the fumes of tobacco smoke. Throughout the car there has been placed a series of steel arches, which bind sills and sides together and strengthen the roof in a manner which renders the car almost indestructible."—Chicago Chronicle.—The Overland Limited leaves Union Passenger Station, Chicago, 6:05 p. m., daily, arrives San Francisco the third day in time for dinner. Route—Chicago, Milwaukee & St. Paul Railway, Union Pacific and Southern Pacific line.

FOR WEAK DIGESTION.
No medicine can replace food, but Chamberlain's Stomach and Liver Tablets will help you to digest your food. FOR MAGISTRATE

We are authorized to announce
GRANVILLE OWENS
as a candidate for Magistrate in the Fifth
district composed of Howard and Broadhead
voting precincts, subject to the action of the
Democrats of that district.

In Trimble county all of the can-
didates in the Democratic primary
for county offices were required to
take an oath that they would use
neither money nor liquor in the
furtherance of their race for the
respective offices before their names
were allowed to go on the ballot:
"I do solemnly swear that I will
neither in person nor by direction,
nor through my friends, either di-
rectly or indirectly, give, loan, or
promise to any voter or any one for
him, any money, property, spirit-
uous, vinous or malt liquors, or any-
thing of value for the purpose of
promoting or influencing my elec-
tion, and should anyone do any of
the above named things for my
benefit, I do solemnly swear that I
will not reimburse him in any way
whatever, and will exert every
effort of which I am capable in
making my race for the offices of
— of Trimble county a just and
honest one."

If such a plan could be adopted
in this county, and it could, if the
voters would only demand it, how
much better it would be. Voters,
you are the people to say how
things shall be conducted.

INDIANA, Wisconsin and Michi-
gan have passed laws forbidding
the use, sale or manufacture of
cigarettes in those States. The
Government and the people foresee
all kinds of trouble and expense in
enforcing the law while in Japan
they do the thing as easily as we
make the laws. Every father whose
son smokes cigarettes is fined the
equivalent of five dollars. The
falseness of the youth therefore
fine is sufficient to induce —
and maintain a zeal in watching the
youth, all of which may be good for
the son, the father and the Govern-
ment in ways other than that of
cigarette smoking.

Sam W. Menifee, editor of the
Danville Advocate, has announced
himself a candidate for Mayor of
that city. Brer Menifee is a hard
worker, and the platform on which
he stands, equal rights and same
treatment to all, will evidently be
a strong drawing card for him.
Here is hoping that he will win
with all ease.

POLITICS AND POLITICIANS

A resolution was presented to
the Tennessee Senate Tuesday by
Mr. Templeton, of Knox county,
the purpose of which is to secure
the consent of the Legislature to
the creation of the proposed new
State out of portions of Tennessee,
Kentucky, Georgia, Virginia and
North Carolina.

Representative Swager Shierley,
of Louisville, was the chief orator
at the annual banquet of the Ham-
ilton Club in Chicago Saturday
night. Mr. Shierley's subject was
"The Political Status of the South."
He said a wave of radicalism is
sweeping over the country, but
that a great conservative party is
also coming, and that the South
stands ready to do its part in the
later movement.

Theodore P. Shouts, President
Roosevelt's "\$100,000 man," says
that direct business methods such
as are employed by the railroads
will be made use of in building

the canal. Monthly reports of
progress for information of every-
body will be published. He says
the people are the stockholders in
the enterprise, and the stockholders
shall be pleased.

A large majority of the loyal,
honest, sensible Democrats of Ken-
tucky have made up their minds
that the best interests of the party
and the State demand the smash-
ing of the "machine" and they will
commence the job by returning
honest old Joe Blackburn to the
United States Senate, and complete
it by nominating and electing some
able, conscientious, courageous
statesman like Col. John R. Allan,
of Lexington, as the next Govern-
or of Kentucky."—Mt. Sterling
Sentinel-Democrat.

JOHN PAUL JONES BURIED IN PARIS, FRANCE.

The New York Tribune publish-
es the following cablegram from
Dumfries, Scotland: "The report
that John Paul Jones was buried in
this city, near which he was born,
is unfounded. He was buried in
Paris, where he died."—[The Dum-
fries Standard.]

Much interest has been taken of
late in the efforts made by Gen.
Horace Porter, American Ambassa-
dor at Paris, to find the bones of
John Paul Jones, the famous naval
officer of the American Revolution.
After much trouble, Gen. Porter
secured permission to make exca-
vations by tunneling under the
houses and other buildings cover-
ing the site of the cemetery, where
the naval hero was buried in 1792;
but the results of the work thus far
have been fruitless, although at one
time it was thought that the coffin-
plate had been found. The decipher-
ing of the almost illegible inscrip-
tion, however, showed that it was
that of another man. The further
progress of the work has been stop-
ped for lack of an appropriation
for the purpose of carrying it for-
ward.

The statement published in The
Tribune on Thursday that Joseph
A. Wheelock, editor of the St. Paul
Pioneer Press, has sent a dispatch
to his paper from Redlands, Cal.,
that Jones was buried in Dumfries.
The authority quoted by Mr. Wheel-
lock was Mrs. Preston, who stated
not only that the body of Jones
had been taken from Paris to Dum-
fries, but that his grave had been
marked by a stone on which was
inscribed, "John Paul Jones, the
Black Pirate."

Jones was born in Kirkcubright-
shire, July 6, 1747. His name was
originally John Paul, and "Jones"
was added by him in 1773, in Vir-
ginia, where he was settling the
estate of a brother who had died.
At the outbreak of the Revolution
he offered his services to the Colo-
nial army, and in 1779, when the
Hombre Richard, a vessel furnish-
ed by the French Government,
was his most notable exploit, for
which he was decorated in France
and received a complimentary letter
from Gen. Washington. The Brit-
ish, however, refused to regard
him as anything but a pirate.

In 1788 Jones entered the Rus-
sian service with the rank of Rear
Admiral, and aided Russia in her
war with the Turks, but jealousies
and intrigues led to his resignation.
In 1792 he was appointed United
States consul at Algiers, but his
commission had not reached him
when he died from an attack of
jaundice, in Paris July 18, 1792.
He was honored with a public fun-
eral by the National Assembly.

The United States far surpasses
every other country in the produc-

less vitally interested in the discov-

Monday's wind storm seems to have been pretty general all over the State, and much damage was done.

Monday was a busy day with the Masons. The Blue lodge spent the entire day at work, and the Chapter most of the night.

There will be a temperance contest held at the school house, Pine Hill, Friday night, April 14th. Everybody cordially invited.

In the last eight days, A. C. Hiatt, the Hiatt merchant, has bought between 900 and 1,000 dozen eggs. How is that for an egg trade?

Dr. S. C. Davis has bought of Willis Adams, the lot between Krueger's lime kiln and Mr. Lechleiter's property. He will commence the erection of a building on it right away.

The wind storm Monday changed ends with Postmaster W. B. Smith's new house, partially completed. Also the roofs to S. C. Franklin's barn and the barn on the Mrs. Stephens property were moved to other quarters.

The car load of pipe for bringing the gas in from gas well No. 1, is now being distributed between Krueger's lime kiln and the well. Orus Bowers, an experienced oil and gas man, has been employed to lay the pipe.

The report has been current that Dr. M. Pennington was thinking of leaving Mt. Vernon, but when asked by a SIGNAL representative, as to the correctness of the report, said: "That such a report was unfounded and that he did not now have and had never had any intention of leaving."

Mrs. Laura E. Tyree, daughter of Mr. Solomon Riddle, died Friday of dropsy, after an illness of several months. The suffering which she endured must have been something terrible. She was so swollen that those who had not seen her since her affliction, were hardly able to recognize her. The burial took place Saturday in the Mt. Vernon cemetery.

Mr. George Livesay, since the strike of gas on his farm, (well No. 1) is unwilling to let the development stop at where it is, but proposes to buy a complete rig and begin another well at once, if the Rockcastle Development Co. will guarantee him three or four wells to put down in the county. Have we enough enterprising men to start the work? It is to be sincerely hoped we have. The losing of just such opportunities as this, for development, is what is holding our county back.

William Flynn, formerly of Brodhead, this county, a brakeman for the L. & N., fell between the cars two miles this side of Lily, Laurel county, Saturday and was killed. He was mangled, his head, both arms and legs being ground off, and the body crushed. Part of his remains was brought to London Saturday night and turned over to an undertaker, and the other parts of his body and limbs were found Sunday morning and brought there. He leaves a wife, who was a daughter of the late J. M. Roberts and one child. His remains were taken to Brodhead, his old home, or burial.

Several of the younger set of boys have been before the court this week for riding trains. There is hardly a train, which stops here, that there can not be seen from one to a half dozen boys hanging on the side of the cars, at some time before it gets outside of the switch.

The American Book Company having refused to renew their bond of \$10,000, which was forfeited to Mason county, State Superintendent Fuqua has notified the County Superintendents of the counties under the former county adoption law that it will be unlawful for the Commonwealth to continue using, or to permit to be used, any of the text books published by the said American Book Company on any such county adoption contracts, as all such county adoptions are forfeited by said company by its refusal to execute a new bond for the continuance of such county adoptions.

The Truant law had a test before Judge Waddle in cases of John Hammock and Phil Gossett, both cases being compromised and withdrawn before judgment was rendered. The penalty for refusal to send children of school age to the public school is \$5 a day for each day after due notice and the Board of Education is very determined on the law's enforcement, until its constitutionality is questioned and tested.—Somerset Journal.—[An enforcement of this law is needed very much in this county. There are numbers of children in the county, who never go to school a day in the year.]

WHY DOES EASTER VARY?—In the early church Easter was identical in date with the Jewish Pass over, but the Council of Nicea, 325 A. D. fixed a different date. It was decreed that Easter should fall on the first Sunday after the 14th day of the moon that happens to be reigning at the time of the vernal equinox. The equinox was arbitrarily made March 21, although in reality it sometimes comes a little earlier or later. For example, suppose the equinox moon is just 14 years on March 21 and that day falls on Saturday. Then the next day would be Easter. This Easter may be as early as March 22, or as late as April 25. In 1761 and 1818 Easter fell on March 22, but this will not happen in this century. It will fall on March 23 in 1913. It fell on April 25 in 1866 and will do so again in 1943.—[Ex.]

DEATHS

BENTON.—Mr. John H. Benton, one of our old and highly respected citizens, died of stomach trouble at the home of his daughter, Mrs. Bessie Kinsolving, Thursday morning, March 30, 1905, at 8:30 o'clock. The funeral will take place at the residence, with services conducted by Rev. J. B. Meacham, at 2 o'clock this afternoon and burial in Macphelah.

Mr. Benton was 75 years of age and was a native of Bourbon county. His wife, who before marriage was Miss Willie Ragan, daughter of the late William Ragan, preceded him to the grave several years.

Mr. Benton until recent years was engaged in farming and was a useful and enterprising farmer. He was of that type of the splendid old Kentucky gentleman that is rapidly becoming extinct. He was a man of fine native sense, courteous, gentlemanly always, ever an advocate of the right, and the death of such a man is a loss to any community.

RELIGIOUS

The vote of the Pennsylvania Presbytery in favor of union with the Cumberland Presbyterian church virtually decides the question, so far as the Cumberland church is concerned, in favor of the proposed union.

The 40th Annual Convention of the Kentucky Sunday School Association will be held at Somerset, June 7, 8 and 9. An exceedingly strong and interesting program is being prepared. Dr. Chas. Roads, of Philadelphia, Rev. E. W. Halpenny, of Indianapolis, and Mr. W. C. Shafer, of Fairmount, are to be the visiting speakers. Each is the General Secretary of his State, and they will come to us with well matured plans. Every School in the State is entitled to representation and a large attendance is expected.

THE SECRET OF HAPPINESS.

The man who can drill his thoughts, so as to shut out everything that is depressing and discouraging and see only the bright side even of his misfortunes and failures has mastered the secret of happiness and success. He has made himself a magnet to draw friends, cheer brightness and good fortune on a dull day. There is no accomplishment, no touch of culture, no gift which will add so much to the alchemic power of life as the optimistic habit, the determination to be cheerful and happy no matter what comes to us. It will smooth rough paths, light up gloomy places and melt away obstacles as the sunshine melts snow on the mountain side.—Ex.

LA GRIPPE—PNEUMONIA

So many people who have apparently recovered from an attack of *La Grippe* are stricken with *Pneumonia*. This is due to the fact that the Bronchial Tubes and Lungs are left weakened and unable to resist disease.

I had a bad case of *La Grippe* about ten years ago which left my Lungs so weak that I have been troubled more or less every winter since until I used **FOLEY'S HONEY AND TAR**, which cured me completely and my Lungs no longer trouble me.—J. H. BROWNING, D.D.S., Orrick, Mo.

The people of the United States are still land hungry. Notwithstanding the fact that according to Commissioner of the General Land Office W. A. The seven principal electrical combines in Germany have, with their affiliated financial and construction companies, a total capital of \$109,106,000.

The Greek government has again ordered a considerable quantity of American petroleum. From time to time there have been complaints in regard to the Russian petroleum furnished of late by the monopoly, and it can not be denied that the American article is of a better quality.

Some high speeds are achieved on the continent. The Northern of France railway has 11 trains which are timed to do 57 miles, or over, per hour, platform to platform. The greatest speed ever recorded was made last year by an electric train on the Berlin & Zossop Military railway (147 miles long), when a speed of 131 miles per hour was attained.

The completion of the Simplon tunnel through the Alps is an event that attracts universal attention as one of the greatest engineering feats of history. The ancient wonders of the world are dwarfed into insignificance by such an achievement as the boring of this mighty hole through the rugged mountains. It is twelve miles long, and is a double compartment bore.

The population of England and Wales is about 30,000,000, showing that there was one petition for dissolution of marriage in some form filed in the courts in 1902 for about each 32,500 population. Experimental, or trial marriages, seemingly are not encouraged by the ease of securing divorce. The sentiment of the people, sustained by the courts, is clearly against divorces or the divorced.

A sea level canal at Panama has grown in favor since the date of the purchase of the French company's rights, and the engineers of the Isthmian canal commission now submit recommendations for the construction of such a canal with a minimum depth of 35 feet, the estimated cost being \$230,500,000. At a level of 60 feet above the sea the canal cost \$178,013,406 but would be more expensive to operate on account of the locks.

THE VERY BEST REMEDY FOR BOWEL TROUBLES—NO FAMILY CAN AFFORD TO BE WITHOUT IT.

"I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as one of the very best remedies for bowel troubles," says Mr. J. W. Hanlon, editor of the Despatch, Ocala, Ga. It is certain to be needed sooner or later. For sale by Chas. C. Davis.

The purpose of the new association, as stated in resolutions presented by the committee on Organization, is to promote measures for the general advancement of educational interests in the Commonwealth and to promote the efficiency and welfare of the secondary schools of the State by establishing uniform entrance, requirements and uniting those schools in their activities. Dr. J. L. Weber, of this city, is chairman of the Executive Committee. Winchester Democrat.

Furnace No. 1, of the Virginia Iron, Coal and Coke Co., at Mid-bleboro, will be blown in the 15th, and with No. 2, will give employment to 300 men. The total output of the two furnaces will aggregate 400 tons daily.

J. J. C. Howard, Representative of the 71st district, composed of the counties of Clay, Owsley and Jackson, and very popular among his constituents, was shot and killed in Clay county by Tifford Benge, with whom he had previous trouble. Strange to say the killing occurred just after the two had made friends. Mr. Howard was a brother of Wick M. Howard, formerly a Crab Orchard merchant.

CHEATED DEATH.

Kidney trouble often ends fatally, but by choosing the right medicine. E. H. Wolfe, of Bear Grove, Ia., cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since as I find they have no equal." All druggists guarantee them, at 50c.

FIFTY CENTS

In some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

With the distinguished occupant of the White House hunting ferocious animals in the Western wilds, and Secretary of State cruising in the Mediterranean, the Government is running by acquired momentum in its accustomed grooves. There are a few hundred clerks in Washington who are the masters of the slaves of routine. Through them the Government revolves like a planet in a frictionless ether. Revenues are collected, supplies are paid for, employees are paid off, the mails are received and distributed, patents, pensions and trade marks are issued, investigations are made by the Departments of Agriculture and of Commerce and Labor, the Army and Navy (the big stick) peacefully practices in times of peace the arts of war. More and more it is forced upon us that we are a big country and if it were true two thousand years ago that "no man liveth to himself," how much truer must it be of the heirs of the age equipped with gun powder, steam, lightning and printing press. We believe that Cuba, the Philippines and even Spain have been benefited by the peace which we compelled and that San Domingo has been helped to an era or interim of peace and honesty through administrative interference. The Monroe Doctrine, first proclaimed when we had not a tithe of our present strength, has assumed a broader significance and acquiescence.

CHAMBERLAIN'S COUGH REMEDY THE BEST AND MOST POPULAR.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind." It seems to have taken the lead over several other good brands. There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by Chas. C. Davis.

The Mediterranean and the Caribbean under the benign agis of the United States are essentially an American as is the Mediterranean a British lake and with the completion of the Panama canal, a great and pacific step will be taken to make Anglo American influence potent and pacific throughout the world.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete much instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure
